### Third Orchard Spray

Orchardists who have not yet applied the third spray of the year, "the three weeks' spray," which is usually applied three weeks after the petals have fallen, are advised to do so at once by horticulture specialists at the University Farm. This spray is designed to control scab, blotch, and codling moth, and it is essential that every bit of exposed leaf and fruit surface be thoroughly covered with a thin film spray mixture. This mixture consists of 1 1/2 gallons of lime sulphur and 2 to 2 1/2 pounds of arsenate of lead paste (or 1 to 1 1/2 pounds of arsenate of lead powder) in 50 gallons of water. Further information will be sent upon application to the Department of Horticulture University Farm, Lincoln, Nebraska.

### Homemade Drying Apparatus

Complete information regarding the making and operation of apparatus to dry fruits and vegetables with an electric or gasoline driven fan will be found in Emergency Bulletin No. 13, just issued by the College of Agriculture Extension Service. This bulletin will be sent free upon application to the Extension Service, University Farm, Lincoln.

### Naturally Indignant

"Did you tell your troubles to a policeman?" "Yes," said the man who had been robbed. "And I tell you that policeman was indignant. The hold-up man hadn't even asked his permission to operate on his beat."

### When the Firemen Appear

the insured man's first thought is one of thankfulness that he is so. How about your thoughts if a fireman should appear at your home?

### The Day Before the Fire

is the day to insure. As that day may be to-morrow for all you can know or do, it follows that prudence would impel you to stop in our office to-day and have us issue you a policy.

Will Get Rid of Felon.

To cure a felon, take common salt, as used for salting pork or beef, dry in the oven, pound fine, mix with equal parts of spirits of turpentine, put in a cloth and wrap around the affected part. As it gets dry put on more. Twenty-four hours of this treatment will kill the felon.
